Odour: ammoniac

Density: 1.015 +/- 0.2

#### APPLICATION

Ideal and very practical for unexpected punctures.  
For temporary puncture repair.

Liquid sealant for tyres with or without inner tube. No damage to tyre quality.

Instantly repairs and inflates inner tubes without tools or removing wheel.

Suitable for tyres of: saloons, 4X4s, people-carriers, SUVs, motorhomes, utilities.

#### RECOMMENDED FOR

- Vehicles, heavy goods vehicles: maintenance of interior plastic trim and dashboards
- Garages
- Hire cars
- All industries using vehicles

#### INSTRUCTIONS FOR USE

Remove the object causing the puncture.  
Shake can vigorously. In cold weather, warm can for several minutes with hands.  
With the inflating valve in the 12 o'clock position, screw on the connecting tube.  
Hold can upright. Press on the button until can is completely empty (approximately 1 minute).  
Immediately drive at least 5km at moderate speed to spread the product. Add pressure.  
Check the puncture 8 to 10 hours later.
